

No one knows child labour risks like *we do.*

For 15 years, The Centre has handled **1,300+ child labour cases** and guided thousands of companies. Now we're turning that leadership into **practical, live, online training.**

Real-world experience. Actionable skills.

Taught by our master trainers with deep, on-the-ground experience, you walk away with tools and methods that can be applied immediately. We focus on what actually strengthens businesses and protects children.

No fluff. Just impact.

Tailored training tracks for all.

For Brands

Sustainability professionals, sourcing managers, HR & compliance staff, and product teams

2026 Focus Areas

Child Labour Prevention & Remediation
(Specialist & Non-Specialist Tracks)

For Suppliers

Chinese-speaking factory, farm, and supplier management teams across global supply chains

2026 Focus Areas

Child Labour Prevention & Remediation
Human Rights Due Diligence

The Centre's Learning Lab provides training that strengthens systems, protects children and reassures buyers.

Real stories. Real skills. More impact.

The global leaders in child labour risk management, backed by 15 years of experience.

For Specialists
Brands & Buyers

CSR, sustainability, and human rights professionals already working with supply chain risk management

Programme details

Duration
3 hours

Language
English

- Deep dive into international frameworks (UNGPs, OECD Due Diligence Guidance, ILO Conventions)
- Practical tools for risk identification, monitoring, and root cause analysis
- Case studies of effective remediation, from individualised responses to community-based approaches
- Designing and evaluating Child Labour Action Hubs and supplier protocols

Pricing

USD 248/person*

Child Labour Prevention and Remediation and How it Links to Sourcing, Quality and Resilient Supply Chains

For Non-Specialists
Brands & Buyers

Buyers, sourcing managers, product teams, and general brand staff with limited human rights experience

Programme details

Duration
2 hours

Language
English

- Child labour essentials: definitions, red flags, and why it matters for one's role
- Why this matters to sourcing specialists, quality managers and supply chain specialists
- How purchasing practices and supplier engagement affect child labour risk
- The basics of remediation: what brands should and shouldn't do
- How to escalate concerns and collaborate with your specialist colleagues

Pricing

USD 248/person*

Set up effective child labour prevention and remediation systems and have your buyers worry less

For
Suppliers

Chinese-speaking factory, farm, and supplier management teams across global supply chains

Programme details

Duration
3 hours

Language
Chinese

- International and local legal requirements on child labour compliance
- How to build on-site systems for identifying, preventing and remediating child labour
- When the unlikely scenario occurs: How to tackle child labour findings
- Case studies: from urgent responses to long-term, community-based solutions
- Strengthening communication with brands and buyers

Pricing

**USD 129/person*
880 RMB/person***

Meeting HRDD Requirements

Manage emerging HRDD requirements after CSR, social compliance and ESG have already raised the bar

For
Suppliers

Chinese-speaking factories, farms and suppliers seeking to comply with mHRDD laws and buyer requirements

Programme details

Duration
3 hours

Language
Chinese

- Overview of mHRDD legal trends and implications for suppliers
- Deep dive into the five salient risk areas identified through targeted HRIAs
- Practical guidance on risk identification, monitoring and mitigation
- Best practices in documentation, reporting and communication with buyers

Pricing

**USD 129/person*
880 RMB/person***
